

JADE MARCO S. MORILLO

 **Address:** Blk 3 Lot 49 Phase 1 Lilac Street Celina Royale Subdivision Bayanan, Bacoor, Cavite

 **Phone:** +63-992-325-9840

 **Contact:** jmarcomorillo@gmail.com | www.linkedin.com/in/jm-morillo

PROFESSIONAL SUMMARY

An analytical and detail-oriented Applied Mathematics graduate specializing in Data Science, with a proven track record in end-to-end data analytics, machine learning pipeline deployment, and full-stack development. Proficient in Python, SQL, R, and advanced business intelligence tools, with hands-on experience in architecting auditing systems and forecasting models. A strategic former executive leader adept at managing cross-functional technical teams, directing data-driven organizational policies, and translating complex datasets into actionable business insights.

EDUCATION

Far Eastern University- Manila
B.S. Applied Mathematics (Data Science Track)
Aug 2022–Present
Dean's Lister, 2nd Semester S.Y. 2024-2025
Dean's Lister, 1st Semester S.Y. 2025-2026

Manila Tytana Colleges
Academic Track (S.T.E.M. Strand)
Aug 2020–July 2022
With High Honors, S.Y. 2021-2022

EXTRACURRICULAR ACTIVITIES

Vice President

FEU Mathematics Society (FEU MathSoc)

May 2025-May 2026

- Directed organizational governance by managing the creation and review of official memorandums, partnership agreements, and policy documents.
- Conceptualized and launched "Solving Y", a bi-semesteral focus group initiative designed to address student grievances.

Executive Committee

FEU Central Student Organization (FEU CSO) Data Analytics Department

September 2023-May 2026

- Generated data-driven reports and policy proposals by modeling gathered complex university data.
- Automated evaluation pipelines in Excel to streamline semestral performance tracking.

Associate Director for Research and Communications IAS Student Council (IAS SC) Marketing and Content Department

June 2025-May 2026

- Formulated data-informed social media strategies and analyzed performance metrics to optimize content and maximize platform engagement.
- Directed cross-departmental creative alignment among student council departments.

Writer

IAS Paragon

September 2023-May 2025

- Authored news features and editorial articles on campus milestones and socio-political issues.
- Collaborated with other writers to verify fact accuracy, refine narrative clarity, and maintain strict journalism guidelines.

PROJECTS

Project Manager and Full-Stack Developer

SMARTech: Social Media Auditing and Reporting Technology

September 2025-May 2026

- Deployed an AI-assisted auditing system featuring a Caption Verifier driven by fine-tuned DeBERTa-v3 and T5 pipelines, alongside a PubMat Checker using a custom YOLOv26 model, with GitHub and HuggingFace for the React front-end and Python backend, and Supabase for the database.

Proponent

TAMStats 2026: Connecting the Pieces through Unbounded Polling

March 2026-May 2026

- Co-managed a data-driven university polling infrastructure utilizing Excel to collect and model student data, transforming raw polling responses into statistical reports to promote informed voting.

Project Manager and Co-Author

Machine Learning Models for Synthesizing and Forecasting the Electricity Outage Risk Index using Time-Series Data

November 2025-December 2025

- Co-developed a predictive machine learning study establishing a two-stage cascading architecture that utilizes LARS and LASSO regressions to model power grid risks from climate time-series data, bypassing proprietary data scarcity by pioneering a synthesized 1–100 Electricity Outage Risk Index proxy.

Data Analyst

Business Intelligence Project for Spotify

September 2024-December 2024

- Engineered a business intelligence solution utilizing Spotify Charts data to model and visualize artist performance and streaming trends through dashboards developed in Tableau that transform raw datasets into business insights.

SKILLS

- Technical:** SQL, Python, R, Statistical Modeling, Machine Learning, Data Mining & Wrangling, Time Series & Econometrics, Multivariate Analysis, Database Management, Mathematical Modeling, C++, Full-Stack Development, Cloud Computing, LaTeX
- Soft:** Analytical Thinking, Data Storytelling, Project Management, Problem-Solving, Leadership, Writing, Client Relations, Adaptability

TOOLS & PLATFORMS

- Tableau Public, Power BI, Jupyter Notebook, RStudio, MySQL, DBeaver, phpMyAdmin, KNIME, Google Colab, Supabase, GitHub, AWS, Vercel, Hugging Face, TensorFlow, Keras, OpenCV, Flutter, Microsoft Office 365, Google Workspace, Notion, Canva, Adobe Lightroom, Windows
